

EDGE ADVANCED

Exemplifying achievement in the following areas:

40%

Energy Savings

40%

Water Savings

45%

Less Embodied Carbon in Materials

612.24 tCO₂/year
Operational CO₂ Emissions

623.45 tCO₂/year
Operational CO₂ Savings

THIS CERTIFIES THAT
Maxxworld
260 Unit(s)

HAS ACHIEVED AN
EDGE ADVANCED CERTIFICATE

SELECTED MEASURES

ENERGY MEASURES

Reflective Roof
Natural Ventilation
Efficient Water Heating System
Power Factor Correction

WATER MEASURES

Water-efficient Showerheads
Water-efficient Faucets in Bathrooms
Efficient Water Closets
Water-efficient Faucets in Kitchen
Waste Water Treatment and Recycling System

MATERIALS

Material-efficient Bottom Floor Slab - Concrete Slab | In-situ Reinforced Slab with >30% PFA
Material-efficient Floor Slabs - Concrete Slab | In-situ Reinforced Slab with >30% PFA
Material-efficient Roof Slab - Concrete Slab | In-situ Reinforced Slab with >30% PFA
Material-efficient Window Glazing - Single Glazing

EDGE is a registered trademark of IFC. ©IFC

The EDGE standard requires 20% efficiencies in energy, water and materials compared to a local benchmark. Predicted efficiencies are not a guarantee of future operational performance. Energy savings may be associated with virtual energy for comfort depending on the presence of heating and cooling systems. Virtual energy does not contribute savings to utility bills.

This certificate is issued by the Certifier based on information provided by the client and the audit by the Auditor, and is subject to the terms and conditions of the Certifier. Contact edge@ifc.org if the above measures are not consistent with your observation on the project.
